

CALL FOR ABSTRACTS

SUBMISSION DEADLINE: **JANUARY 7, 2022**

**LMPC
2022**

Liquid Metal Processing & Casting Conference

September 18-21, 2022

Bellevue Hotel • Philadelphia, Pennsylvania, USA

The Liquid Metal Processing & Casting Conference (LMPC) convenes experts from both industry and academia to specifically discuss the latest advances in primary and secondary melt processing including vacuum induction melting (VIM), vacuum arc remelting (VAR), electroslag refining (ESR), and electron beam cold hearth remelting (EBCHR). No other dedicated conference specializes in this type of melting.

Topics planned for LMPC 2022 include but are not limited to:

- Primary and Secondary Melt Processing (Vacuum Induction Melting, Vacuum Arc Remelting, Electroslag Refining, Plasma Melting, and Similar Processes)
- Physical Property Measurements of Liquid Metals and Slags
- Modelling and Control of Liquid Metallurgical Processes
- Ceramic, Slag, and Refractory Reactions with Liquid Metals
- Alloy Melt Refining, Evaporation and Gas/Metal Reactions
- Origins of Defects During Liquid Metal Processing

If your abstract is scheduled for presentation during LMPC 2022, a proceedings manuscript is required. The manuscript deadline is April 1, 2022.

LMPC2022 ORGANIZERS

TECHNICAL COMMITTEE CO-CHAIRS:

- **Abdellah Kharicha**
Montauniversität
- **Matthew Krane**
Purdue University
- **Mark Ward**
University of Birmingham

LOCAL ORGANIZING COMMITTEE:

- **Andrew Elliott**
Consarc Corporation
- **Kyle Fezi**
Fort Wayne Metals
- **Corey O'Connell**
Special Metals
